To whom it may concern

This is to certify that **Mr. Md Asadullah Siddiqui (Roll -2304162)**, a student of the Department of Electronics and Communication Engineering, National Institute of Technology Patna, successfully completed an internship under my supervision during the month of October 2025. During this period, he worked on the project titled “**Data Augmentation Techniques for Children’s Automatic Speech Recognition**”. Throughout the internship, he demonstrated strong analytical abilities, technical competence, and a sincere interest in speech processing and machine learning. He actively explored various data augmentation methods and their impact on improving the robustness and performance of children’s automatic speech recognition systems.

Mr. Siddiqui is diligent, self-motivated, and capable of working both independently and collaboratively. His conduct and dedication throughout the internship were commendable. I wish him all the best in his future academic and professional endeavours.

Thanking you

With kind regards

Syed Shahnawazuddin
